

HOT MINI DOUGHNUTS

At The Dapper Doughnut, we never do things the boring way; we never will. Our handcrafted mini doughnuts are “cake style”. They are light and moist and slightly crunchy. Our doughnuts are made all day long so they’re always hot and fresh—you can even watch them being made and "dressed" with the toppings of your choice.

THE EXPERIENCE

The Dapper Doughnut shop is designed to celebrate the unique process of creating each mini doughnut to the customer’s order. The Dapper Doughnut customer values the transparency of this process, so the doughnut-making assembly line has been placed front and center in the customer experience. Each doughnut is treated as special and presented as such.
